If we accept the idea that photography should not be a faithful transcription of reality and that, like all forms of visual arts, it performs an essentially interpretative role, the photographs of Lisa Borgiani expressed in a unique way a vision of reality with a touch of subjective interpretation, to which the action painter gives her own "sense", placing together and subjecting them to the same forms of expressions of paintings.

Dott.ssa Clorinda Lidia Canzio  
Italian Cultural Institute

The Art Loft , a contemporary art gallery located in the Volvo car showroom, was officially launched on 7 Nov 2002 by Dr Ho Kah Leong the Principal of Nanyang Academy of Fine Arts. Overlooking the showroom, The Art Loft is filled with an international collection of contemporary art by a diverse group of artists from across the world, who works illustrate various moods and emotions that symbolize life in its various forms.
